INTRODUCTION

In order to conduct business with GTT National Ltd a Trading Account for the vendor must first be established.

The Charge Through facility is designed to simplify the charging of goods and services supplied to our customers. The system enables our approved customers operating with GTT National Ltd to purchase goods without having to pay direct. Conversely you receive payment from one source instead of several.

The Charge Through Facility is a fundamental part of GTT National Limited and it's customers are encouraged to utilise this when trading with any vendor.

Trading terms, procedures and requirements must be accepted and agreed upon in writing before transactions may be made to any of our customers.

TRADING TERMS

ORDINARY TERMS (OT)

Standard payment terms are 2.50% settlement discount with payment made by the last trading day of the month following the date of the invoice. This discount is deducted from the statement at the time of payment. These terms are acknowledged as the accepted standard practice in the New Zealand grocery industry. The deduction relates to both the transfer of the "del credere" risk from you the vendor to GTT National Ltd and the administration costs involved in providing the Charge Through facility.

SPECIAL TERMS

Where payments are required to differ from that of ordinary terms and might include a greater payment frequency, these should be negotiated with the Wholesale Merchandise Manager.

TRADE PRICING

The vendor should make available an appropriate price list to the Wholesale Merchandise Manager prior to the commencement of trade. Price changes are to be done in accordance with the national policies and procedures that are available to view on line at: www.suppliers.foodstuffs.co.nz. A supplier price list is expected to accompany the application of any new account request.

PURCHASING TERMS

Where the vendor has purchasing terms of trade these should be submitted to the Wholesale Merchandise Manager for approval and should meet the requirements of the Foodstuffs national business that are available on line at: www.suppliers.foodstuffs.co.nz. A copy of these terms should accompany the application of any new account request if not incorporated into the supplier price list.

Policy Content and Guidelines

eCommerce Definition

“The Foodstuffs eCommerce platform has been created to drive efficiencies by employing electronic delivery channels across Foodstuffs business transactions end to end, which will include supply chain and administrative processes, for purchases through to invoices, payment and processing.”

eCommerce Policy

- 7.2.1. This policy applies to all suppliers, both new and existing, that deal with all three Foodstuffs companies.
- 7.2.2. All suppliers where the purchase order transaction can be initiated electronically by Foodstuffs will be required to accept the PO in the Foodstuffs electronic format via the Foodstuffs Exchange channel. Acceptance of the purchase order includes the requirement to acknowledge and confirm via ASN electronically to assist goods receipt.
- 7.2.3. All suppliers will be required to submit electronic invoices to Foodstuffs using the Foodstuffs Exchange as the primary channel.
- 7.2.4. All suppliers will be required to support accurate transactions for purchasing and invoicing by implementing GS1net for product data maintenance. GS1net Ready and GS1net Live suppliers must maintain their GS1net catalogues in an accurate and timely manner.
- 7.2.5. Each supplier will be given a specific time period to complete any work within their back office to meet the new policy. After the stated period has expired Foodstuffs may opt to impose one or more of the penalties listed below until such time as the work is completed.

Penalties:

1. \$5 processing fee on every manual transaction
2. Reduction in ranging of products
3. Reduction in promotional support

Electronic Invoice Requirements

Foodstuffs has a number of requirements relating to e-invoices and e-credits, to ensure compliance with New Zealand tax regulations. Suppliers who are required to send electronic invoices and credit notes must comply with all Foodstuffs requirements, as outlined in our eCommerce Manuals, User Guides, and on our Websites.

Policy Goals

The initial goal of this policy is to have the top suppliers for each Foodstuffs company submit electronic invoices to Foodstuffs using the Foodstuffs Exchange as the primary channel. The suppliers targeted will be generated from the number of invoices per month sent to each Foodstuffs company.

The goal is that all identified suppliers will have completed the enablement process for the Exchange within 12 months of initial communication regarding this policy.

Scope

This policy applies to all suppliers to Foodstuffs and its Banner groups. Additionally it would apply to any future Foodstuffs retail or wholesale brand.
